

FINNS OF FINLAND; FRESH OF FINLAND

Tragedy of High Politics Which Was Sad, but Inevitable.

BY GEORGE FRASER.

Special Cable to The Tribune.
ST. PETERSBURG, July 16.—The absorption of Russia by Finland was one of those tragedies of high politics which was sad but inevitable. The best interests of the empire required the elimination of the ancient grand duchy as a semi-independent entity. The point with Russia is that the Finns consider themselves a nation, and they are not willing to be in a position to take what measures she may see fit to take in the protection of the Russian empire as a whole. But Russia has rather spoiled her case in the eyes of outsiders by practically following the lead of the wolf in the fable who accused the lamb of muddying the water. For example, a great deal of excitement was worked up recently over the alleged conspiracy of the Finns to smuggle arms into the country. The facts are that one or two Finnish firms tried to evade the prohibition against the sale of guns and air guns were smuggled into the country. The facts are that one or two Finnish firms tried to evade the prohibition against the sale of guns and air guns were smuggled into the country. The facts are that one or two Finnish firms tried to evade the prohibition against the sale of guns and air guns were smuggled into the country.

Finns Have Fought Hard.
One of the great points in favor of Russia's action is the general tendency in Europe toward the gradual swallowing up of small states, but it is not to be expected that the small states will submit to lose their individuality without a struggle. This is particularly hard lines on an intensely patriotic people like the Finns, and they have fought the ground inch by inch as they have seen themselves being crushed by the Russian government. Since the present war came to the throne the Russian government has been particularly determined in its onslaughts, and in 1899 they sent a Finnish as governor general, Bobrikoff, an implacable enemy of Finnish liberty. He was an overbearing officer, and he was so cordially hated by the Finns that when he took a walk in the street in St. Petersburg, he was coming promptly crossed to the other side. At another time he patronized a concert got up for charitable purposes, and though the Finns bought up all the tickets, not one of them attended. He caused the Finnish postage stamps to be abolished, and he ordered the use of Russian stamps instead.

Issue a Mourning Stamp.
To meet this the Finns issued a "mourning stamp," all black except the arms of Finland in the upper left corner. In their letters beside the compulsory Russian stamp. The Russian government, deprived of the Finns of even this small satisfaction, forbade the use of the stamp, and all letters bearing it were destroyed.

One of the Finnish senators who had supported the designs of Russia was refused apartments in the principal hotels at Helsinki in Finland capital. By the indiscretion of a porter he secured rooms in one hotel. When the manager discovered who his guest was he asked him to leave. But the Finns refused to do so. As a result, the public boycotted the hotel, and it was practically ruined.

Several petitions and deputations were sent to the tsar, but the deputations he refused to see and the petitions were ignored. The Finns then elected a young man of good family and education as a representative to the tsar. He did not stay in Russia's hand, and the Russianification has gone on more sternly than ever. During the recent election, the opposition realizing that they had no chance for fair discussion, withdrew from the arena, leaving the government a free hand. As a result, thirteen complicated clauses were passed in twelve minutes and the final reading taken up. When the result was declared, one of the most determined of the government party sprang to his feet, shouting triumphantly: "Finns Finlandians!"—"The finish of Finland!"

LOEB LIKES HUNTING BETTER THAN POLITICS

By Leased Wire to The Tribune.
NEW YORK, July 16.—Collector Loeb of the port of New York, formerly secretary to President Roosevelt, and suggested by President Taft as the logical Republican nominee for governor of New York state, is counting the days until September 16, when he starts on a hunting trip in the west. Collector Loeb declares that he will try to take away any of the laurels of President Roosevelt, but he declares that he will bring back trophies to show that he is no molly-coddle hunter.

The collector is going with Bob Davis, editor of a big New York publishing house, and Sam Blythe, a political writer. They will probably go either to Denver or Salt Lake City and bring back trophies to show that he is no molly-coddle hunter.

MANY IMMIGRANTS ARE DENIED ADMISSION

By Associated Press.
WASHINGTON, July 16.—Nearly 25,000 of the immigrants who arrived at U. S. ports during the fiscal year ended June 30 last were denied admission by the immigration officials and were compelled to return to the countries from which they came. Various reasons were assigned for refusing to allow them to remain here, including those of physical defects and the probability of their becoming public charges. DESPERATE RULING IN MANAGUA PREVAILS

United States Taking Official Steps to Ascertain the Ex- act Conditions.

By Associated Press.
WASHINGTON, July 16.—On the strength of press reports, the state department today telegraphed American Consul Moffatt at Bluefields to ascertain whether Dr. Lawrence Burghelm of Houston, Tex., is held a prisoner by the Madriz forces. The report was that Dr. Burghelm had been compelled to treat the wounded at Bluefields bluff.

One of these orders prohibited private individuals from leaving the city without written permission from the authorities. Persons disobeying this order were charged as revolutionists.

GERMANY WILL KEEP ON COURSE OUTLINED

By Leased Wire to The Tribune.
BERLIN, July 16.—Premier Asquith's reference to Germany's naval budget in his speech in the house of commons has made the question of Anglo-German relations the foremost topic in the public mind again. While the premier's expressions are generally appreciated and are expected to have a good effect, this brought out clearly the firmness of the German disposition to enter into any arrangement looking to a limitation of armaments. Germany, it is urged, must continue to be the sole judge as to what naval and military forces it needs for the protection of its interests. Irritation is expressed at Mr. Asquith's repetition of the charge that Germany has accelerated the rate of building. Naval experts content themselves with denying this statement without going into the more important question regarding the ship building plans after 1912. Under the present law the number of battleships to be built annually sinks from four to two. The press discussion, however, recognizes that the question whether the government at that time shall proceed to adopt a programme providing for a still more powerful fleet is the most important one between the two countries.

WRECK TRAIN HELD UP BY INCENSED ITALIANS

By Associated Press.
ALBANY, N. Y., July 16.—A wrecking train on the Boston & Maine railroad, which was sent out from Mechanicville early today to clear up the freight wreck yesterday near Ubers, was delayed by Italians before it reached the wreck. As the train slowed down two Italians pointed rifles at the engineer and fireman and refused to let the wreckers proceed. The train carried about forty Italian laborers who found themselves facing an armed crowd. The train returned to Mechanicville. Yesterday's wreck is believed to have been caused by pulling spikes from the rails.

("Lucky") Baldwin, arrived yesterday from Boston in the company of her mother. It will be claimed that she is a child by common law marriage. Because of her youth, it will be necessary to have the marriage pointed. The girl's attorney says that as soon as this has been done the attack on the will will be made.

NEW YORK G. O. P. WANTS NEW CHAIRMAN

By Associated Press.
NEW YORK, July 16.—Republicans throughout the state are casting about for a new state chairman to succeed Timothy L. Woodruff, and they are having no end of trouble in finding a man who, in the estimation of the party managers, measures up to the job in a year when the Republican party is certain to have one of the hardest fights in its history.

Latest gossip centers around the name of N. V. V. Franchot of Cattaraugus county, who was superintendent of public works under Governor Higgins, and who has for many years been prominently connected with the state organization. Mr. Franchot has not yet indicated whether he will take the place if it is offered to him, but it is thought that he will do so.

China ponies have been secured in Mukden and are on the way to Tokyo for the expedition. The expedition will proceed via Bonin islands and Australia, and in an announcement issued to the Japanese press Lieutenant Shirase says: "We will leave McMurdo bay in November and reach the south pole January 28, returning after a stay of three days at the pole."

ATTEMPTS TO DESTROY ESTATE OF ROCKEFELLER

By Leased Wire to The Tribune.
PIERCEFIELD, N. Y., July 16.—Attempts to destroy William Rockefeller's vast estate in the Adirondack mountains near Bay Pond, Franklin county, news of which had been suppressed until today, have caused State Superintendent of Forests Pettis to double the number of fire patrolmen who guard the territory from incendiarism. The estate is now protected by a least 100 men because of the fear that mountaineers will carry out their threats of revenge against Rockefeller for closing up the ancient trails that led to his land.

It became known today that 600 acres of the Rockefeller estate were burned over a few days ago before the flames could be controlled. The fire was started on the edge of the preserve during the night and the entire force of Rockefeller's private guard worked many hours to conquer the flames, which for a time threatened the entire estate.

SHOOTING AFFRAY THAT IS NEARLY A TRAGEDY

By Associated Press.

Rickett escaped, pursued by a crowd, but ran into the arms of a policeman. He and Dawson were taken to the city jail, followed by a crowd of several thousand persons. Threats were made to lynch the detective, but he was finally landed behind the bars. Extra police were placed on duty at the jail in an endeavor to prevent a repetition of the Newark tragedy of last night.

He was right today, however, and says he will attempt a flight from Winnipeg to Portage La Prairie next week when his machine is repaired.

OYSTER BAY, N. Y., July 16.—Theodore Roosevelt saw no politicians today and talked no politics. SENSIBLE STEP TO PREVENT DAMAGE SUITS

By Associated Press.
SEATTLE, Wash., July 16.—Lumbermen of western Washington, through the legislative committee of the Pacific Coast Lumbermen's association, yesterday launched a campaign for the enactment by the legislature of an employers' liability law whereby employees of all kinds shall be paid for injuries received in the performance of their duties, regardless of how the injuries were received and without costly personal damage litigation, now so frequent.

The lumbermen propose to arrange for a state wide conference of employers, employees and representatives of organized labor and others to shape the legislation desired.

"We desire to do away, so far as possible, with the attitude of personal damage suits and to take out of the hands of unscrupulous attorneys a business which deprives the injured of what is rightfully theirs," said Paul Page of the lumbermen's committee. "We want the men injured in the mills, logging camps, on the railroads, in the shops and elsewhere to receive every penny due them and not the pittance they now so often receive after a long and costly litigation."

"We believe that the amount of money yearly spent in personal damage litigation, together with large sums paid by employers to employers' liability insurance companies would go far toward making every injured working man comfortable."

The loss is estimated at \$600,000.

VOLIVA WILL CARRY OUT PLANS DOWIE ORIGINATED

By Associated Press.
CHICAGO, July 16.—Practically unopposed with absolute control of Zion City, Alexander Dowie as overseer of the religious commonwealth on the shore, will continue the policies of his founder and seek to establish faith he established.

This was Voliva's answer yesterday to the surprise following Judge Landis' decision in the United States circuit court Thursday whether he would divide property and sell it or continue movement started by his predecessor. Under the ruling of Judge Landis, Dowie estate is to be sold to a real estate firm by Receiver Thomas for \$1,000 and under a contract with the firm Voliva is to repurchase it for \$900,000 in eight years, thus regaining what he was deprived of when receivership proceedings were instituted nearly after the death of Dowie nearly four years ago.

With only one exception the plans Dowie are to be followed in their entirety. Voliva declares that exception is to the manufacture and commerce of Zion City are to be added agricultural pursuits, which Voliva maintains are necessary to the prosperity of any community.

FRIENDS FINALLY AID SOCIALIST "MARTYR"

By Associated Press.
GRAFTON, Ill., July 16.—The martyrdom of John J. Keen, Socialist of this city, ended when, last night, after serving three months in jail, his friends paid his fine and costs, aggregating \$30. Keen was sentenced to prison on April 15 to serve six months for failure to pay his annual polltax of \$1.50. The martyrdom of Keen against the Illinois tax attracted national attention. He declared he would spend the remainder of his life in jail rather than submit to paying for the privilege of carrying polltax receipt around with him. Should his friends not come to his rescue, he was yesterday in a fair way of spending at least seven years continuously in the Grafton jail, for Keen was in years in arrears in his polltax.
